

Shot Blaster FBE200

Working width 220 mm

7.5 kW turbine power on 220 mm working width

Perfect blast patterns with 5 bladed blastwheel

FBE200 maintenance and tool box

The FBE200 shot blasting machine combines high productivity with low overall height and weight. Its modular design opens up unique application possibilities: The shot blasting width can be increased by adding the expansion module. The drive unit

enables an even and infinitely adjustable feed. Maintenance work on the FBE200 after the first 300 operating hours can be carried out easily on site without special tools and with little loss of time.
