

CUT-ALL cut-off wheels
for universal use

CUT-ALL cut-off wheels for universal use

The new BASIC CUT-ALL cut-off wheel is a true all-rounder for all cutting tasks. Whether you want to cut steel, stainless steel, NF metals, PVC or even stone (e.g., concrete products, screed, sand-lime bricks, etc.), this tool is the smartest choice. Your wheel changes are reduced and you can still benefit from smooth running and low burr formation. The special composition prevents clogging of the wheel, even on aluminium and other NF metals. Our BASIC CUT-ALL is the right cut-off wheel for anyone who wants to save time without compromising on quality.

Application
CUT-ALL cut-off wheels are suitable for numerous materials and thus reduce wheel changes considerably.

+ Universal use on numerous materials

+ Smooth cutting

+ Low burr formation

Product range

Form	Type number	Dimension	Specification	PU
